

23rd March 2022

Dear Parent/Carer,

HEALTH RELATED BEHAVIOUR SURVEY – YEAR 4

Our school, along with several others, has agreed to participate in a very important Health Behaviour Survey of children and young people. This survey supports the work of Newcastle City Council and its partners in the NHS.

We stand to benefit through our participation in the survey in a number of ways. For example; the survey results may prompt us to review the Personal Social Health and Economic Education (PSHCE) curriculum. It will also help as a;

- Starting point for classroom discussion and activities
- Guide in choosing resource materials to support healthier lifestyle choices
- Guide for staff training requirements
- Starting point for discussions between parents and schools

The survey method that we are using has been developed by the Schools Health Education Unit, Exeter University and has been in use for over 30 years, with over 3000 schools using it.

The questions concern a wide range of health behaviours, for example:

- Home and family
- Relationships, emotional health and well-being,
- Tobacco, Alcohol, Drugs
- Internet safety
- Healthy Eating
- Exercise

As a result of the survey Newcastle City Council and the NHS will have reliable information from which it can better plan health care provision for young people. They and the school find the content of the questionnaire acceptable. We hold a copy of the questionnaire in the school office, and if you would like to view it, you are welcome to do so.

Each questionnaire is anonymous and confidential, and no pupil will be identified when the data is returned to school. The Public Health team will receive a summary

of all schools results and data for use in further analysis. They will use this to help in planning and targeting resources and services.

I hope you will agree with us that this is an exercise in which we wish to co-operate fully. I will assume you **do approve** unless I hear otherwise and I look forward to working with you in planning improved health promotion for our pupils. **PLEASE INDICATE BELOW AS APPROPRIATE AND RETURN TO SCHOOL BY 28th March.**

No individual's answers will be linked to your child's name or address. The survey will be carried out in the next week.

Yours sincerely,
Mr Bonnar
