

Religious Education

Energy:

The children will explore the energy of fire and wind. They will discuss the wonder and power of the Holy Spirit and they will reflect on the story of Pentecost, where the disciples were filled with the Holy Spirit.

Choices:

Through this topic, we will explore choices and their consequences. Children will understand more fully the Sacrament of Reconciliation.

Special Places:

The children will identify that the Christian community has many special places: places where people gather for prayer and worship. They will learn that these places are holy because of their association with Jesus or holy people and that they are places of pilgrimage.

Other Faiths: Islam

The Mosque is the Muslim place of worship.

Mathematics

Money Adding and subtracting money and calculating change.

Time Telling the time and measuring time in seconds, minutes and hours. Converting minutes to seconds and seconds to minutes.

Pictograms and Bar Graphs Drawing and interpreting pictograms and bar graphs.

Fractions Counting in tenths, finding part of a set, equivalent fractions, comparing and ordering.

English

Mystery and Adventure stories

The Ancient Egypt Sleepover by Stephen Davies –

Children will write their own Diary entry.

Digital Narrative Unit

Taking Flight

Children will read and understand the features of these texts and they will create their own story using the *Story Mountain* writing frame. Children will write an Extended Narrative based on the digital literacy clip.

Grammar: Children will learn to use coordinating and subordinating conjunctions, adverbs, pronouns and apostrophes accurately in their writing.

Handwriting: Children will continue to use the diagonal and horizontal strokes needed to join letters.

Year Three – Summer Term

Science

In our **Forces** topic, children will learn about contact and non-contact forces and investigate magnetic forces. In our **Light** topic, children will be investigating light sources, shadows and the apparent movement of the sun.

Computing

Children will create programs with sequencing, loops and events. They will investigate problem-solving techniques and develop strategies for building positive communities both online and offline.

Geography

Changing Jobs

Children will learn about different jobs and the job sectors they belong to. Through analyzing pie charts, they will compare job sectors with different countries and explore how these sectors may change in the future.

Art

Children will study Egyptian Art and they will make their own Egyptian scrolls.

History

Children will understand who the Ancient Egyptians were and what their major achievements were. They will understand where this period sat in relation to other key historical events and they will also examine what happened during this era.

P.E.

Children will gain an understanding of fundamental athletic skills to develop technique, control and balance of their bodies. They will also take part in guided Dance group routines.

Music

Children will continue to develop their repertoire of three part rounds and partner songs. Children will create a graphic score and will create a performance piece using rhythms they have written. Music reading will increase in difficulty with children learning quaver rests and tied quavers.

French

Children will be able to talk about how old they are and where they live. They will also be able to give a spoken and written description of places.
